**A unified digital environment
for connected commerce.**

Building Connected Commerce

Business growth depends on strong partnerships, trusted suppliers and efficient collaboration across the value chain.

indusretail is Orchasp's B2B marketplace ecosystem, designed to connect manufacturers, suppliers, distributors, dealers, retailers and logistics partners through a unified digital platform. It enables businesses to discover opportunities, streamline procurement, strengthen supply networks and build lasting commercial relationships.

By bringing together buyers, sellers and service providers within a collaborative marketplace, indusretail creates a trusted environment where businesses can transact efficiently, expand their reach and accelerate growth.

B2B Marketplace Ecosystem

A Connected Marketplace Built for Bulk Commerce

A B2B Marketplace Built for Bulk Commerce

Many B2B platforms stop at discovery—helping businesses find suppliers, vendors and contact information. indusretail goes beyond business listings by enabling commerce itself.

The platform allows business customers to discover products across categories, evaluate available options and place bulk orders directly through the marketplace. It is designed to make business purchasing more structured, accessible and transaction-oriented—bringing product discovery and bulk procurement into a connected digital environment.

Who Benefits

A marketplace ecosystem designed to bring multiple commercial participants together.

- Manufacturers
