General

In the year 2015-16, global business environment continued to be slow. Economic environment was weak leading to steep fall in oil prices, continued weakness in commodity prices, recession in some large market economies. However, the domestic market remained resilient. The Indian economy has emerged as a bright spot in the midst of slower economies of the world.

However, liquidity remained challenging.

Data Storage, transmissions, advancements in communication methodologies, shift from desktop based information systems to hand held devices and mobile applications have disrupted traditional business models and have evolved digital models.

The fast pace of technology change and the need for technology professionals in both the existing and emerging technology areas are driving businesses to rely on third parties to realize their technology transformation.

- Technology Consulting Companies – who take on niche and time bound projects for their client
- Global IT outsourcing companies who leverage global talent pools to systematically optimise the IT Operations of clients

- Data Analytics companies who specialise in designing , analysing and reporting insights from the vast amount of data that corporations are collecting about their customers operations and markets.
- Internal IT Departments of Companies which are usually cost centres for these corporations.

Technology Outsourcing Models

The existing model of technology outsourcing where in the technology is outsourced on a project by project basis or on a standalone basis has some operational disadvantages. To address these, companies are looking at outsourcing approaches/platforms that require their service providers to develop specialised systems, processes and solutions in a cost effective manner.

Offshore Technology Services Models

In order to leverage the cost effectiveness of offshore service providers most of the companies are increasingly depending on this model. As a result off shore services providers have become critical and they continue to grow in recognition and sophistication.

Business Process Outsourcing Models

The domestic environment is maturing in a way which has created opportunity for businesses to outsource core and noncore processes to service providers for cost optimisation as well as to achieve a process oriented delivery model.

Annexure B to the Auditor's Report

"Annexure B" referred to in paragraph 2(f) under "Report on other legal and Regulatory Requirements" section of report on financial statements of even date to the members of CYBERMATE INFOTEK LIMITED on the financial statement for the year ended 31st march 2016.

Report on the Internal Financial Controls under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

We have audited the internal financial controls over financial reporting of CYBERMATE INFOTEK LIMITED ('the Company') as of 31st March 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such

controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of the Management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to Accounts

22. Secured Loan from Housing Finance Company

The Company's immovable property was leased out to another IT Services company for 10 years in 2004. The Lease rentals were discounted with a housing finance company to augment working capital for the company. The tenant had terminated the lease and vacated the property of the company in 2009. Owing to Political conditions in the state the property could not be leased out and thereby the account became irregular. The company approached the lender to restructure the loan but they initiated proceedings under SARFAESI Act to recover their dues. The Lender took possession of the property. The company approached the Debts recovery tribunal. However as on the balance sheet date the property continues to be registered in the name of the company and the lender is yet to make his submissions before the debts recovery tribunal.

23. Subsidiary Companies

The Company has two Wholly Owned Subsidiaries viz Cybermate Infotek Limited Inc at U.S.A and Cybermate Infotek Ltd F.Z.E at U.A.E.

Operations of the Subsidiary in U.S.A. remained dormant since the year 2002.

The company has reviewed the operations of the wholly owned Subsidiary at UAE i.e Cybermate Infotek Limited FZE.

The subsidiary was formed in the year 2009, looking at the potential in the middle east markets. Subsequently due to local and international factors resulted in adverse business conditions on account of which the company could not proceed with its plans.

The company waited all along looking for an improvement and it is felt that additional investment at this stage would not make it viable and hence the company has decided to close the operations and write off the carrying amount of the investments in overseas subsidiary of Rs.38,16,91,600/-.

Statement containing salient features of the financial statement of subsidiaries/associate companies/joint ventures in Form AOC - 1 is annexed to the Directors' Report as Annexure D pursuant to first proviso to sub-section (3) of section 129 of the Companies Act, 2013 read with Rule 5 of Companies (Accounts) Rules, 2014.

Notes to Accounts

22. Secured Loan from Housing Finance Company

The Company's immovable property was leased out to another IT Services company for 10 years in 2004. The Lease rentals were discounted with a housing finance company to augment working capital for the company. The tenant had terminated the lease and vacated the property of the company in 2009. Owing to Political conditions in the state the property could not be leased out and thereby the account became irregular. The company approached the lender to restructure the loan but they initiated proceedings under SARFAESI Act to recover their dues. The Lender took possession of the property. The company approached the Debts recovery tribunal. However as on the balance sheet date the property continues to be registered in the name of the company and the lender is yet to make his submissions before the debts recovery tribunal.

23. Subsidiary Companies

The Company has two Wholly Owned Subsidiaries viz Cybermate Infotek Limited Inc at U.S.A and Cybermate Infotek Ltd F.Z.E at U.A.E.

Operations of the Subsidiary in U.S.A. remained dormant since the year 2002.

The company has reviewed the operations of the wholly owned Subsidiary at UAE i.e Cybermate Infotek Limited FZE.

The subsidiary was formed in the year 2009, looking at the potential in the middle east markets. Subsequently due to local and international factors resulted in adverse business conditions on account of which the company could not proceed with its plans.

The company waited all along looking for an improvement and it is felt that additional investment at this stage would not make it viable and hence the company has decided to close the operations and write off the carrying amount of the investments in overseas subsidiary of Rs.38,16,91,600/-.

Statement containing salient features of the financial statement of subsidiaries/associate companies/joint ventures in Form AOC - 1 is annexed to the Directors' Report as Annexure D pursuant to first proviso to sub-section (3) of section 129 of the Companies Act, 2013 read with Rule 5 of Companies (Accounts) Rules, 2014.

24. Software Products

As at the balance sheet date the company has reviewed the Software Products for their impairment.

On account of improvements in technology some of the products were not yielding revenues for the last three years and it is felt that additional investments in the said products would not enable to make the products viable and that there is no recoverable amount for these software products and hence the products valued at Rs21,53,51,093/- identified as non cash generating units are written off as Impairment loss.

25. Unamortised Product Development Expenses

Unamortised Product Development expenses of Rs. 1,13,11,572/- has been fully written off considering the obsolescence in the technology of the products involved.

26. Segment Reporting
